

SMSC POLICY

Pupils' spiritual development involves the growth of their sense of self, their unique potential, their understanding of their strengths and weaknesses, and their will to achieve. As their curiosity about themselves and their place in the world increases, they try to answer for themselves some of life's fundamental questions. They develop the knowledge, skills, understanding, qualities and attitudes they need to foster their own inner lives and non-material well-being.

Pupils' moral development involves pupils acquiring an understanding of the difference between right and wrong and of moral conflict, a concern for others and the will to do what is right. They are able and willing to reflect on the consequences of their actions and learn how to forgive themselves and others. They develop the knowledge, skills, understanding, qualities and attitudes they need, in order to make responsible moral decisions and to act on them.

Pupils' social development involves pupils acquiring an understanding of the responsibilities and rights of being members of families and communities (local, national and global), and an ability to relate to others and to work with others for the common good. They display a sense of belonging and an increasing willingness to participate. They develop the knowledge, skills, understanding, qualities and attitudes they need to make an active contribution to the democratic process in each of their communities.

Pupils' cultural development involves pupils acquiring an understanding of cultural traditions and an ability to appreciate and respond to a variety of aesthetic experiences. They acquire a respect for their own culture and that of others, an interest in others' way of doing things and curiosity about differences. They develop the knowledge, skills, understanding, qualities and attitudes they need to understand, appreciate and contribute to culture.

INTRODUCTION

At Just Learn Independent School we recognise that the personal development of pupils, spiritually, morally, socially and culturally, plays a significant part in their ability to learn and achieve. We aim to provide an education that provides pupils with opportunities to explore and develop their own values and beliefs, spiritual awareness, high standards of personal behaviour and a positive, caring attitude towards others. We aim to help them achieve an understanding of social and cultural traditions and an appreciation of the diversity and richness of their cultures.

The school curriculum aims to promote pupils' spiritual, moral, social and cultural development and prepare all pupils for opportunities, responsibilities and expectations in life.

Moral values, principles and spirituality will be explored throughout the curriculum and especially in RS. The integrity and spirituality of all faiths will be respected and explored. Pupils are given access to alternative views and a diversity of spiritual traditions.

All staff model and promote expected behaviour, treating all people as valuable individuals and showing respect for pupils and their families.

Pupils are encouraged to differentiate between right and wrong and look at how their actions affect others. They are encouraged to value themselves and others.

Pupils are encouraged to understand the need for rules for the good of everyone. Classroom and school rules reflect and reward acceptable behaviour and celebrate work and achievements.

All curriculum areas should seek to use illustrations and examples drawn from as wide a range of cultural contexts as possible. This will be reflected in planning and learning resources.
